COUNTY MANAGER'S RECOMMENDATION OR COMMENTS:

SUMMARY OF INFORMATION:

The U.S. Department of Health and Human Services, Health Resources and Services Administration (HRSA), released a notice of funding opportunity HRSA-19-049 titled, "Healthy Start Initiative: Eliminating Disparities in Perinatal Health".

The purpose of this Healthy Start (HS) program is to improve health outcomes before, during, and after pregnancy, and reduce racial/ethnic differences in rates of infant death and adverse perinatal outcomes. The grants period of performance is from April 1, 2019, through March 30, 2024. Funding beyond the first year is subject to the availability of appropriated funds.

The Healthy Start program started in 1991, and aims to address communities with infant mortality rates at least 1.5 times the U.S. national average and high rates of other adverse perinatal outcomes (e.g., low birthweight, preterm birth).

Services include preconception, pregnancy, and interconception home visits and phone contact for women and their children up to 18 months after delivery, as well as to the fathers/partners associated with the women and children. These case management services utilize evidence-based tools for risk assessment and screening; provide education; and coordinate and facilitate access to health services for women, children and fathers.

The Department of Public Health has received grant funding for the past 20 years in partnership with the State Division of Public Health, Women's Health Branch. For this funding cycle, the Department of Public Health will partner with Piedmont Health Services and Sickle Cell Agency, a Guilford County non-profit agency, to carry out the Healthy Start program. Public Health will be responsible for clients and program activity solely for Forsyth County. Piedmont Health Services will serve as the lead agency for the grant for submission and grant administration if the funding is awarded. If awarded, the Department of Public Health would become a sub-awardee of Piedmont Health Services.

The HRSA grant request allows eligible organizations to seek funding at an award level \$892,500, for Year 1, and up to \$950,000, for each year thereafter. Public Health's grant budget for Year 1, is in the amount of \$275,459; Year 2: \$286,478; Year 3: \$295,072; Year 4: \$300,973; Year 5: \$306,992; and, funding is for 4.20 FTEs, supplies, operational costs, and required travel and training.
